Forest Ecology and Management

Author Index

Ades, P.K., *see* Burgman, M.A. et al.
Arp, P.A., *see* Meng, F.R. et al.
Baccalá, N., *see* Rosso, P.H. et al.
Bale, C.L. and Charley, J.L.
The impact of aspect on forest floor characteristics in some eastern Australian sites 305
Belvedere, M., *see* Lindenmayer, D.B. et al.
Boyd, M.T., *see* Wojtusik, T. et al.
Brannon, M.P., *see* Petranka, J.W. et al.
Burgman, M.A., Incoll, W., Ades, P.K., Ferguson, I., Fletcher, T.D. and Wohlers, A.
Mortality models for mountain and alpine ash 319
Campbell, B.M., *see* King, J.A. et al.
Cannon, C.H., Peart, D.R., Leighton, M. and Kartawinata, K.
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia 49
Charley, J.L., *see* Bale, C.L. et al.
Cole, W.G. and Lorimer, C.G.
Predicting tree growth from crown variables in managed northern hardwood stands 159
Cornelius, J.
The effectiveness of plus-tree selection for yield 23
Cunningham, R.B., *see* Lindenmayer, D.B. et al.
Davey, C.B., *see* Szott, L.T. et al.
Donnelly, C.F., *see* Lindenmayer, D.B. et al.
Duff, A.B., Meyer, J.M., Pollock, C. and Felker, P.
Biomass production and diameter growth of nine half-sib families of mesquite (*Prosopis glandulosa* var. *glandulosa*) and a fast growing *Prosopis alba* half-sib family grown in Texas 257
Fang, Y., *see* Jiang, Z. et al.
Felker, P., *see* Duff, A.B. et al.
Felker, P., *see* Wojtusik, T. et al.
Ferguson, I., *see* Burgman, M.A. et al.
Fletcher, T.D., *see* Burgman, M.A. et al.
Fontenla, S., *see* Rosso, P.H. et al.
Ford, W.M., Johnson, A.S. and Hale, P.E.
Nutritional quality of deer browse in southern Appalachian clearcuts and mature forests 149
Gao, L., *see* Jiang, Z. et al.
Hale, P.E., *see* Ford, W.M. et al.
Havrylenko, M., *see* Rosso, P.H. et al.
Heitzman, E. and Nyland, R.D.
Influences of pin cherry (*Prunus pensylvanica* L. f.) on growth and development of young even-aged northern hardwoods 39
Hopey, M.E., *see* Petranka, J.W. et al.
Incoll, W., *see* Burgman, M.A. et al.
Jactel, H., Menassieu, P. and Raise, G.
Infestation dynamics of *Dioryctria sylvestrella* (Ratz.) (Lepidoptera: Pyralidae) in pruned maritime pine (*Pinus pinaster* Ait.) 11
Jiang, Z., Gao, L., Fang, Y. and Sun, X.
Analysis of Paulownia-intercropping types and their benefits in Woyang County of Anhui Province 329
Johnson, A.S., *see* Ford, W.M. et al.
Kartawinata, K., *see* Cannon, C.H. et al.
King, J.A. and Campbell, B.M.
Soil organic matter relations in five land cover types in the miombo region (Zimbabwe) 225
Knowe, S.A.
Incorporating the effects of interspecific competition and vegetation management treatments in stand table projection models for Douglas-fir saplings 87
Knowe, S.A.
Effect of competition control treatments on height–age and height–diameter relationships in young Douglas-fir plantations 101
Lapeyrie, F., *see* Yazid, S.M. et al.
Lee, S.S., *see* Yazid, S.M. et al.
Leighton, M., *see* Cannon, C.H. et al.
Liang, Q., *see* Ying, C.C. et al.
Lindenmayer, D.B., Cunningham, R.B., Donnelly, C.F., Triggs, B.E. and Belvedere, M.
Factors influencing the occurrence of mammals in retained linear strips (wildlife corridors) and contiguous stands of montane ash forest in the Central Highlands of Victoria, southeastern Australia 113
Lorimer, C.G., *see* Cole, W.G. et al.
Lundqvist, L., *see* Valinger, E. et al.
Lyytikäinen, P.
The success of pine sawflies in relation to 3-carene and nutrient content of Scots pine foliage 1
Magnusson, T.
Studies of the soil atmosphere and related physical characteristics in peat forest soils 203
Menassieu, P., *see* Jactel, H. et al.
Meng, F.R. and Arp, P.A.

Modelling photosynthetic responses of a spruce canopy to SO_2 exposure 69
Messina, M.G., *see* Valigura, R.A. et al.
Meyer, J.M., *see* Duff, A.B. et al.
Nyland, R.D., *see* Heitzman, E. et al.
Okeke, A.I. and Omaliko, C.P.E.
Litterfall and seasonal patterns of nutrient accumulation in *Dactyladenia barteria* (Hook f ex. Oliv.) Engl. bush fallow at Ozala, Nigeria 345
Omaliko, C.P.E., *see* Okeke, A.I. et al.
Palik, B.J. and Pregitzer, K.S.
White pine seed-tree legacies in an aspen landscape: influences on post-disturbance white pine population structure 191
Palm, C.A., *see* Szott, L.T. et al.
Payandeh, B., *see* Wang, Y. et al.
Peart, D.R., *see* Cannon, C.H. et al.
Petranka, J.W., Brannon, M.P., Hopey, M.E. and Smith, C.K.
Effects of timber harvesting on low elevation populations of southern Appalachian salamanders 135
Pollock, C., *see* Duff, A.B. et al.
Pregitzer, K.S., *see* Palik, B.J. et al.
Raise, G., *see* Jactel, H. et al.
Rosso, P.H., Baccalá, N., Havrylenko, M. and Fontenla, S.
Spatial pattern of *Austrocedrus chilensis* wilting and the scope of autocorrelation analysis in natural forests .. 273
Smith, C.K., *see* Petranka, J.W. et al.
Sun, X., *see* Jiang, Z. et al.
Sundberg, B., *see* Valinger, E. et al.
Szott, L.T., Palm, C.A. and Davey, C.B.
Biomass and litter accumulation under managed and natural tropical fallows 177
Triggs, B.E., *see* Lindenmayer, D.B. et al.
Valigura, R.A. and Messina, M.G.
Evaluation of potential evaporation as a means to infer loblolly pine seedling physiological response to a given microclimate 241
Valinger, E., Lundqvist, L. and Sundberg, B.
Mechanical stress during dormancy stimulates stem growth of Scots pine seedlings 299
Wang, Y. and Payandeh, B.
A bi-segmental curve fitting approach to improve the accuracy of site index equations 35
Wohlers, A., *see* Burgman, M.A. et al.
Wojtusik, T., Boyd, M.T. and Felker, P.
Effect of different media on vegetative propagation of *Prosopis juliflora* cuttings under solar-powered mist. 267
Yazid, S.M., Lee, S.S. and Lapeyrie, F.
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius* 339
Ying, C.C. and Liang, Q.
Geographic pattern of adaptive variation of lodgepole pine (*Pinus contorta* Dougl.) within the species' coastal range: field performance at age 20 years 281

Forest Ecology and Management

Subject Index

Acer saccharum
Predicting tree growth from crown variables in managed northern hardwood stands 159
Air pollution
Modelling photosynthetic responses of a spruce canopy to SO_2 exposure 69
Algebraic difference equation
Effect of competition control treatments on height–age and height–diameter relationships in young Douglas-fir plantations 101
Alpine ash
Mortality models for mountain and alpine ash 319
Aspect
The impact of aspect on forest floor characteristics in some eastern Australian sites 305
Austrocedrus chilensis
Spatial pattern of *Austrocedrus chilensis* wilting and the scope of autocorrelation analysis in natural forests .. 273
Autocorrelation analysis
Spatial pattern of *Austrocedrus chilensis* wilting and the scope of autocorrelation analysis in natural forests .. 273
Bending
Mechanical stress during dormancy stimulates stem growth of Scots pine seedlings 299
Biodiversity
Effects of timber harvesting on low elevation populations of southern Appalachian salamanders 135
Biomass
Biomass and litter accumulation under managed and natural tropical fallows 177
Biomass production
Biomass production and diameter growth of nine half-sib families of mesquite (*Prosopis glandulosa* var. *glandulosa*) and a fast growing *Prosopis alba* half-sib family grown in Texas 257
Bi-segmental curve fitting
A bi-segmental curve fitting approach to improve the accuracy of site index equations 35
Boreal forest
Studies of the soil atmosphere and related physical characteristics in peat forest soils 203
Brachystegia
Soil organic matter relations in five land cover types in the miombo region (Zimbabwe) 225
Bush fallow
Litterfall and seasonal patterns of nutrient accumulation in *Dactyladenia barteria* (Hook f ex. Oliv.) Engl. bush fallow at Ozala, Nigeria 345
Canopy structure
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia 49
Carbon dioxide
Studies of the soil atmosphere and related physical characteristics in peat forest soils 203
Clearcutting
Effects of timber harvesting on low elevation populations of southern Appalachian salamanders 135
Nutritional quality of deer browse in southern Appalachian clearcuts and mature forests 149
Cline
Geographic pattern of adaptive variation of lodgepole pine (*Pinus contorta* Dougl.) within the species' coastal range: field performance at age 20 years 281
Clone
The success of pine sawflies in relation to 3-carene and nutrient content of Scots pine foliage 1
Combination equation
Evaluation of potential evaporation as a means to infer loblolly pine seedling physiological response to a given microclimate 241
Competition
The effectiveness of plus-tree selection for yield 23
Competition index
Predicting tree growth from crown variables in managed northern hardwood stands 159
Conservation
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia 49
Constrained nonlinear model
A bi-segmental curve fitting approach to improve the accuracy of site index equations 35
Cox regression
Mortality models for mountain and alpine ash 319
Crown competition
Predicting tree growth from crown variables in managed northern hardwood stands 159
Cuttings
Effect of different media on vegetative propagation of

Prosopis juliflora cuttings under solar-powered mist. 267
Dactyladenia barteria
Litterfall and seasonal patterns of nutrient accumulation in *Dactyladenia barteria* (Hook f ex. Oliv.) Engl. bush fallow at Ozala, Nigeria 345
Deer browse
Nutritional quality of deer browse in southern Appalachian clearcuts and mature forests 149
Development
Influences of pin cherry (*Prunus pensylvanica* L. f.) on growth and development of young even-aged northern hardwoods 39
Diameter growth
Biomass production and diameter growth of nine half-sib families of mesquite (*Prosopis glandulosa* var. *glandulosa*) and a fast growing *Prosopis alba* half-sib family grown in Texas 257
Diameter growth projection
Incorporating the effects of interspecific competition and vegetation management treatments in stand table projection models for Douglas-fir saplings 87
Dioryctria sylvestrella
Infestation dynamics of *Dioryctria sylvestrella* (Ratz.) (Lepidoptera: Pyralidae) in pruned maritime pine (*Pinus pinaster* Ait.) 11
Diprionidae
The success of pine sawflies in relation to 3-carene and nutrient content of Scots pine foliage 1
Dipterocarpaceae
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius* 339
Douglas-fir
Incorporating the effects of interspecific competition and vegetation management treatments in stand table projection models for Douglas-fir saplings 87
Ecological benefit
Analysis of Paulownia-intercropping types and their benefits in Woyang County of Anhui Province 329
Economic profit
Analysis of Paulownia-intercropping types and their benefits in Woyang County of Anhui Province 329
Ectomycorrhiza
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius* 339
Eucalyptus
Soil organic matter relations in five land cover types in the miombo region (Zimbabwe) 225
Mortality models for mountain and alpine ash 319
Fitting accuracy
A bi-segmental curve fitting approach to improve the accuracy of site index equations 35
Forest floor
The impact of aspect on forest floor characteristics in some eastern Australian sites 305
Forest fragmentation
Factors influencing the occurrence of mammals in retained linear strips (wildlife corridors) and contiguous stands of montane ash forest in the Central Highlands of Victoria, southeastern Australia 113
Forest mammal conservation
Factors influencing the occurrence of mammals in retained linear strips (wildlife corridors) and contiguous stands of montane ash forest in the Central Highlands of Victoria, southeastern Australia 113
Forest recovery
White pine seed-tree legacies in an aspen landscape: influences on post-disturbance white pine population structure 191
Fraxinus americana
Predicting tree growth from crown variables in managed northern hardwood stands 159
Genetic gain
The effectiveness of plus-tree selection for yield 23
Geographic variation
Geographic pattern of adaptive variation of lodgepole pine (*Pinus contorta* Dougl.) within the species' coastal range: field performance at age 20 years 281
Growth
Influences of pin cherry (*Prunus pensylvanica* L. f.) on growth and development of young even-aged northern hardwoods 39
Hardwood regeneration
Influences of pin cherry (*Prunus pensylvanica* L. f.) on growth and development of young even-aged northern hardwoods 39
Height growth pattern
A bi-segmental curve fitting approach to improve the accuracy of site index equations 35
Effect of competition control treatments on height–age and height–diameter relationships in young Douglas-fir plantations 101
Heterogeneity
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia 49
Hopea
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius* 339
Humid tropics
Biomass and litter accumulation under managed and natural tropical fallows 177
Infestation dynamics
Infestation dynamics of *Dioryctria sylvestrella* (Ratz.) (Lepidoptera: Pyralidae) in pruned maritime pine (*Pinus pinaster* Ait.) 11
Intercropping
Analysis of Paulownia-intercropping types and their benefits in Woyang County of Anhui Province 329
Interspecific competition
Incorporating the effects of interspecific competition and vegetation management treatments in stand table projection models for Douglas-fir saplings 87

Effect of competition control treatments on height–age and height–diameter relationships in young Douglas-fir plantations 101
Landscape management
Effects of timber harvesting on low elevation populations of southern Appalachian salamanders..... 135
Litter
Soil organic matter relations in five land cover types in the miombo region (Zimbabwe) 225
Litterfall
Litterfall and seasonal patterns of nutrient accumulation in *Dactyladenia barteria* (Hook f ex. Oliv.) Engl. bush fallow at Ozala, Nigeria 345
Local adaptation
Geographic pattern of adaptive variation of lodgepole pine (*Pinus contorta* Dougl.) within the species' coastal range: field performance at age 20 years 281
Lodgepole pine
Geographic pattern of adaptive variation of lodgepole pine (*Pinus contorta* Dougl.) within the species' coastal range: field performance at age 20 years 281
Logging impact
Factors influencing the occurrence of mammals in retained linear strips (wildlife corridors) and contiguous stands of montane ash forest in the Central Highlands of Victoria, southeastern Australia..... 113
Maize
Soil organic matter relations in five land cover types in the miombo region (Zimbabwe) 225
Managed fallows
Biomass and litter accumulation under managed and natural tropical fallows 177
Management
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia..... 49
Mature forests
Nutritional quality of deer browse in southern Appalachian clearcuts and mature forests 149
Mechanized logging
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia..... 49
Mesquite
Biomass production and diameter growth of nine half-sib families of mesquite (*Prosopis glandulosa* var. *glandulosa*) and a fast growing *Prosopis alba* half-sib family grown in Texas..... 257
Methane
Studies of the soil atmosphere and related physical characteristics in peat forest soils..... 203
Mortality
Spatial pattern of *Austrocedrus chilensis* wilting and the scope of autocorrelation analysis in natural forests .. 273
Mortality models for mountain and alpine ash..... 319
Mountain ash
Mortality models for mountain and alpine ash..... 319
Needle chemistry
The success of pine sawflies in relation to 3-carene and nutrient content of Scots pine foliage..... 1
Nutrient accumulation
Litterfall and seasonal patterns of nutrient accumulation in *Dactyladenia barteria* (Hook f ex. Oliv.) Engl. bush fallow at Ozala, Nigeria 345
Nutritional quality
Nutritional quality of deer browse in southern Appalachian clearcuts and mature forests 149
Optimization
Modelling photosynthetic responses of a spruce canopy to SO_2 exposure..... 69
Organic matter
Soil organic matter relations in five land cover types in the miombo region (Zimbabwe) 225
Oxygen
Studies of the soil atmosphere and related physical characteristics in peat forest soils..... 203
Paulownia
Analysis of Paulownia-intercropping types and their benefits in Woyang County of Anhui Province..... 329
Peat soil
Studies of the soil atmosphere and related physical characteristics in peat forest soils..... 203
Phenotypic selection
The effectiveness of plus-tree selection for yield..... 23
Phosphorus
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius*..... 339
Pin cherry
Influences of pin cherry (*Prunus pensylvanica* L. f.) on growth and development of young even-aged northern hardwoods 39
Pinus
The success of pine sawflies in relation to 3-carene and nutrient content of Scots pine foliage..... 1
White pine seed-tree legacies in an aspen landscape: influences on post-disturbance white pine population structure..... 191
Geographic pattern of adaptive variation of lodgepole pine (*Pinus contorta* Dougl.) within the species' coastal range: field performance at age 20 years 281
Pinus pinaster
Infestation dynamics of *Dioryctria sylvestrella* (Ratz.) (Lepidoptera: Pyralidae) in pruned maritime pine (*Pinus pinaster* Ait.) 11
Pinus sylvestris
Mechanical stress during dormancy stimulates stem growth of Scots pine seedlings..... 299
Pisolithus
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius*..... 339
Plethodontidae
Effects of timber harvesting on low elevation populations of southern Appalachian salamanders..... 135

Populus
White pine seed-tree legacies in an aspen landscape: influences on post-disturbance white pine population structure 191
Propagation
Effect of different media on vegetative propagation of *Prosopis juliflora* cuttings under solar-powered mist. 267
Prosopis
Biomass production and diameter growth of nine half-sib families of mesquite (*Prosopis glandulosa* var. *glandulosa*) and a fast growing *Prosopis alba* half-sib family grown in Texas 257
Effect of different media on vegetative propagation of *Prosopis juliflora* cuttings under solar-powered mist. 267
Pruning
Infestation dynamics of *Dioryctria sylvestrella* (Ratz.) (Lepidoptera: Pyralidae) in pruned maritime pine (*Pinus pinaster* Ait.) 11
Prunus pensylvanica
Influences of pin cherry (*Prunus pensylvanica* L. f.) on growth and development of young even-aged northern hardwoods 39
Pseudotsuga menziesii
Incorporating the effects of interspecific competition and vegetation management treatments in stand table projection models for Douglas-fir saplings 87
Regeneration
Evaluation of potential evaporation as a means to infer loblolly pine seedling physiological response to a given microclimate 241
Relative diameter
Effect of competition control treatments on height–age and height–diameter relationships in young Douglas-fir plantations 101
Residual stand
The structure of lowland rainforest after selective logging in West Kalimantan, Indonesia 49
Shelterwood
Evaluation of potential evaporation as a means to infer loblolly pine seedling physiological response to a given microclimate 241
Simulation
Modelling photosynthetic responses of a spruce canopy to SO_2 exposure 69
Slope aspect
The impact of aspect on forest floor characteristics in some eastern Australian sites 305
Soil
The impact of aspect on forest floor characteristics in some eastern Australian sites 305
Soil frost
Studies of the soil atmosphere and related physical characteristics in peat forest soils 203
Solar-powered mist
Effect of different media on vegetative propagation of *Prosopis juliflora* cuttings under solar-powered mist. 267
Spatial pattern
Spatial pattern of *Austrocedrus chilensis* wilting and the scope of autocorrelation analysis in natural forests .. 273
Specificity
Growth stimulation of *Hopea* spp. (Dipterocarpaceae) seedlings following ectomycorrhizal inoculation with an exotic strain of *Pisolithus tinctorius* 339
Stands
Mortality models for mountain and alpine ash 319
Stomatal conductance
Modelling photosynthetic responses of a spruce canopy to SO_2 exposure 69
Succession
White pine seed-tree legacies in an aspen landscape: influences on post-disturbance white pine population structure 191
Sum of squared error
A bi-segmental curve fitting approach to improve the accuracy of site index equations 35
Tilia americana
Predicting tree growth from crown variables in managed northern hardwood stands 159
Tracheid width
Mechanical stress during dormancy stimulates stem growth of Scots pine seedlings 299
Transfer distance
The success of pine sawflies in relation to 3-carene and nutrient content of Scots pine foliage 1
Tropical secondary forest
Biomass and litter accumulation under managed and natural tropical fallows 177
Uneven-aged management
Predicting tree growth from crown variables in managed northern hardwood stands 159
Vegetation management
Incorporating the effects of interspecific competition and vegetation management treatments in stand table projection models for Douglas-fir saplings 87
Vegetative propagation
Effect of different media on vegetative propagation of *Prosopis juliflora* cuttings under solar-powered mist. 267
Water use efficiency
Modelling photosynthetic responses of a spruce canopy to SO_2 exposure 69
Wildlife corridor
Factors influencing the occurrence of mammals in retained linear strips (wildlife corridors) and contiguous stands of montane ash forest in the Central Highlands of Victoria, southeastern Australia 113
Xylem growth
Mechanical stress during dormancy stimulates stem growth of Scots pine seedlings 299
